

A man with a beard and short hair is shown in profile, looking towards the right. He is wearing a dark jacket over a t-shirt. The background is a dimly lit room with warm, orange and red lighting. There are neon signs, some of which are glowing and others that are just outlines. A large, spiky plant is visible on the right side. The overall mood is artistic and moody.

REAL PHOTOGRAPHY IS STARTING
WHEN THE SUN GOES DOWN!

biography

in 2007 started working with Photoshop

in 2012 started working as Event Photographer and shot more then 8,2M event pictures, more then 1,8M urban pictures and commercial brand pictures

in 2014 founded NIGHTLIFE WEEKEND an Event Management Company.

in 2016-2018 Eventmanagement at Club Sector.

Visited 35 countries, 192 cities, drunk 10.085 Energy Drinks. Shot more then 60 Live Acts on tour and sleepless nights for the passion.

Learned all the skills how to be a professional photographer by my own.

Mainly inspired by urban and trap music.

I was a professional call of duty gamer and this inspired me to became a graphic designer and creating websites and working with photoshop. After a couple of month i managed the successful youtube channel Hamburger Hänger, more then then 1 Mio Sub. I edited all the videos and uploaded the videos for the top 5 artist on you tube back in 2009.

Back in 09' we was started organizing events and the photographer cancelled last minute.

So i have bought a camera for 100€ and shot all the pictures of that night.

The Passion was born and i wanted to became a professional photographer.

Iam specialised in Killer Shots and all type of Event Photography like Crowd Shots, Lit moment Shots, Set up Shots etc

I am good at letting clubs looks bigger and and more crowdy.

Event areas

In every event there are different aspects and sections that I always have in mind. Every perspective and focus on the different aspects is very important.

- Set up shots - highlights of the construction of an event.
- Crowd Shots - The celebrating Crowd (the feeling of the people has to speak in the pictures).
- Sponsoring Shots - Sponsors have to be highlighted and appreciated.
- People Shots - the best post marketing
- Act Shots - You can make the event look very special and the pictures will be shot according to the schedule.
- Killer Shots - The absolute supreme discipline.
